## DETAILED ACTION

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/13/03 has been entered.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 32-42 are rejected under 35 U.S.C. 102(b) as being anticipated by Aizawa.

Aizawa (Figures 1-4) shows a device for connecting a lamp 1 with an electrode 3 to a wire 23 having an exterior sheath and a conductive core 24. The device has a solderable elongated conductive body 6 with a first pair of clamping arms 22 for pressing and securing the wire, a second pair of clamping arms 21 for pressing and securing the conductive core of the wire and a clamp (arms 10a, 10b, 8a, 8b) integral with and extending at right angles to the body as well as at right angles to the longitudinal axis of the electrode, which snap-fit over the lamp and the electrode for

pressing and securing the lamp and the electrode. The first clamping arms can clinch the wire to prevent solder from flowing up the conductive core. The clamping structure is integral with the body and parallel to the body.

***Response to Arguments***

4. Applicant's arguments with respect to claims 32-42 have been considered but are moot in view of the new ground(s) of rejection.
